The Manu Biosphere Reserve has the highest diversity of life on Earth and is one of the most important conservation units in the world. If you were to choose THE best birding trip in the world, this must surely be a candidate for the top ten. The beauty of this trip is the variety of habitats visited ranging from orchid laden cloud forest where Spectacled Bears and Cock-of-the-Rocks still live unmolested, to untouched Amazon rainforest where 13 species of Monkey abound and Giant Otters still exist.
in the ox-bow lakes. A trip to Manu is a trip to one of the world's great wilderness areas where wildlife is still plentiful and over 1000 species of birds have been recorded. We regularly record 600 species on this tour and often see Jaguar. No birding in cutover forest on this trip! Imagine birding on forest trails with mixed species flocks that might contain over 50 species and bumping into a troop of Peruvian Spider Monkeys around the corner, or quietly paddling on a catamaran on an Ox-bow Lake with Giant Otters and teeming lakeside birdlife!

March 29th – April 16th 2016

Tour Leader: Silverio Duri

Cocha Blanco Ox-bow Lake Manu
PRINCIPAL BIRDING LOCATIONS

Acjanaco Pass: S13 11 929 W 071 37 057 (Tres Cruces) Guard Station (3360mts)
Wayqecha Biological Station: S 13 10 478 W 071 35 478 (2910mts)
Pillahuata (bellow the Tunnels): S 13 09 725 W 071 35 670 (2600mts)
Rocotal: S 13 06 081 W 071 34 145 (2010 mts)
Cock of the Rock Lodge: (CORL) S 13 03 863 W 071 32 377 (1300mts)
Quita Calzones: S 13 01 550 W 071 29 979 (1000m)
Pillcopata: S 12 54 518 W 071 24 196 (600m)
Mirador (Above Atalaya) : S 12 53 730 W 071 21 751 (751m)
Atalaya : S 12 53 368 W 071 21 547 (500 mts)
Amazonia Lodge: S 12 52 232 W 071 22 527 (AL) (500 mts)
Manu Wildlife Center: (MWC) 12°21'19.99"S 70°42'18.06"W (250 mts)
Puerto Maldonado: 12°36'10.09"S 69°11'28.54"W (220 mts)

DAY BY DAY ACTIVITIES

March 29th: Very early start from Cusco over the Eastern range of the Andes via Pisac road with stop at Abra Pampayacta - highest point 3800 meters, with few more birding stops along the way and also at Paucartambo for some shopping and lunch before getting to Acjanaco the Manu National Park guards station (the Pass) 3560 meters. And also we birded the Tres Cruces road inside the park for a short time and in the afternoon we birded slowly down the road toward the Wayqecha Biological Station (2900 meters). Night at Wayqecha Research Station.

March 30th: Full day at Wayqecha – in the morning we spent the all morning up the road above until below Acjanaco and in the afternoon we went down the road below the tunnels. Overnight at Wayqecha Biological Station.

March 31st: Full day at Wayqecha – in the morning we spend the all morning down the road to Pillahuata and in the afternoon down again and back up above the Lodge for owling in the evening. Overnight at Wayqecha Biological Station.

April 01st: Wayqecha to Cock of the Rock Lodge slowly birding down the road toward Cock of the Rock Lodge (2900-2300 mts). Night at Cock of the Rock Lodge (1400 mts).
April 02nd: Full day at Cock of the Rock Lodge. In the morning we walk along the Manakin trail and just round the Lodge itself and in the afternoon up the road and we had rain near the end of the day. Night at Cock of the Rock Lodge.

April 03rd: Full day at Cock of the Rock Lodge. Morning down the road to “Quita Calzones” 1000 mts and in the afternoon above the Union River with a short visit to the Andean Cock of the Rock Lek below Union bridge. Night at Cock of the Rock Lodge.

April 04th: Full day at Cock of the Rock Lodge. Morning up the road to Rocotal (2000 mts) where we also had rain and in the afternoon a little bit down the road, where we saw the Chestnut- tipped Toucanet. Overnight at Cock of the Rock Lodge.

April 05th: Cock of the Rock Lodge to Amazonia Lodge birding our way down and stopping at Pillcopata for more shopping and we had lunch after Pillcopata and then we continued birding our way to Atalaya where we took the boat to cross the Alto Madre de Dios River to reach to Amazonia Lodge. Overnight at Amazonia Lodge.

April 06th: Full day at Amazonia Lodge. All day birding around the garden and some of the flood plain forest trail system including around the small lagoon where we saw a lot of Hoatzin and in the afternoon a little bit of the ridge trail. Night Spent at Amazonia Lodge (500mts).

April 07th: Full day at Amazonia Lodge. All day birding around the floodplain forest trail system. Night at Manu Wildlife Center (250m).

April 08th: Boat ride from Amazonia Lodge to Manu Wildlife Center with some short birding before departure. Night at Manu Wildlife Center.

April 09th: Full day at MWC. In the early morning we went down the River to the Blanquillo Macaw clay lick and on the way back to the Lodge we stopped at the Anthrush trail (bamboo forest) and in the afternoon we did the GRID trail system. Night at Manu Wildlife Center.

April 10th: Full day at MWC: In the morning we went to the canopy platform near the Cocha Camungo ox-bow Lake and after few hours we cruised the Lake itself and in the afternoon we did the GRID again. Night Manu Wildlife Center.

April 11th: Full day at MWC: In the morning we visited the MWC canopy platform and the collpa trail and in the afternoon the GRID again. Night at Manu Wildlife Center.

April 12th: Full day at MWC: in the morning after rain we did collpa trail and in the afternoon we did the GRID again. Night Manu Wildlife Center.

April 13th: Full day at MWC: in the morning we went down River to Anthrush trail (bamboo forest) and in the afternoon we birded along the collpa trail. Night at Manu Wildlife Center.

April 14th: Full day at MWC: in the morning we went to Cocha Blanco ox-bow Lake and in the afternoon Creekside and collpa trail. Night at Manu Wildlife Center.
April 15th: Boat ride to Boca Colorado (gold mining town) and then we took a car to take us to Puerto Punkiri and a short boat ride to Puerto Carlos and onto Santa Rosa where we took the highway to finally take us to Puerto Maldonado with nice lunch on the way. Night at Cabaña Quinta in Puerto Maldonado.

April 16th: Birding morning to La Cachuela road (macaw clay lick) and back to the Hotel for breakfast and pack to go the Airport for the flight – but before getting to the Airport we did a detour to La Pastora for our very last bird (White-throated Jacamar) where we had great views - End of the Trip.

The Key to the Bird list

RED – IUCN RED LIST CATEGORY
SACC = South American Classification Committee
IOC = International Ornithological Congress
+ EBird taxonomy order
RR = Range restricted species
E = Peruvian Endemic
*= Heard Only

THE BIRDLIST

TINAMOUS
White-throated Tinamou - *Tinamus guttatus*
Brief view of 2 along the collpa trail at Manu Wildlife Center

Cinereous Tinamou - *Crypturellus cinereus*
3 in total seen at Amazonia Lodge.

Little Tinamou – *Crypturellus soui*
1 seen at Amazonia Lodge

Brown Tinamou - *Crypturellus obsoletus* *
Heard around Cock of the Rock Lodge

Undulated Tinamou - *Crypturellus undulatus*
1 at Amazonia Lodge and another one at MWC
Black-capped Tinamou – Crypturellus atricapillus*
At Amazonia Lodge

Variegated Tinamou - *Crypturellus variegatus*
At MWC

Bartlett’s Tinamou - *Crypturellus bartletti*
At MWC

SCREAMERS
Horned Screamer - *Anhima cornuta*
Great views of this stunning bird; 8 plus seen at Cocha Blanco and few more days before – at Blanquillo Macaw clay lick and also at Cocha Camungo

DUCKS
Orinoco Goose - *Oressochen jubata*
2 seen on our way down from Amazonia Lodge to Manu Wildlife Center. **NEAR THREATENED**

Muscovy Duck - *Cairina moschata*
Common on the Madre de Dios River several – seen in two different days around MWC

Yellow-billed Teal - *Anas flavirostris*
2 at the small lake near Sacsayhuaman Inca ruins in our way out from Cusco to Wayqecha; The SACC says “Hellmayr & Conover (1948a) and many earlier classifications treated *andium* (Andean Teal) as a separate species from *A. flavirostris.*
Many authors, from Meyer de Schauensee (1970) to Dickinson (2003), have treated \textit{Andium} as a subspecies of \textit{A. flavirostris}. \textit{Anas andium} was considered a separate species from \textit{Anas flavirostris} by Ridgely et al. (2001), and this was followed by Hilty (2003). SACC proposal passed to recognize \textit{Andium} as separate species. Jaramillo (2003) further suggested that the subspecies \textit{oxyptera} may also deserve recognition as a separate species from \textit{A. flavirostris}.

**Ruddy Duck (Andean) - \textit{Oxyura ferruginea (jamaicensis)}**

Also seen at the same Lake as the previous one. The SACC says “Andean populations of Ruddy Duck \textit{O. jamaicensis} have often (e.g., Hellmayr & Conover 1948a, Siegfried 1976, Sibley & Ahlquist 1990, AOU 1998, Ridgely et al. 2001, Jaramillo 2003) been treated as a separate species, \textit{O. ferruginea} ("Andean Duck" or "Andean Ruddy-Duck"). However, see Adams and Slavid (1984), Fjeldså (1986), and McCracken & Sorenson (2005) for rationale for treating them as conspecific, as done previously (e.g., Blake 1977, Johnsgard 1979), and then followed by Fjeldså & Krabbe (1990) and Carboneras (1992f). Siegfried (1976) and Livezey (1995) considered \textit{ferruginea} to be more closely related to \textit{O. vittata} than to \textit{O. jamaicensis}, but McCracken & Sorenson (2005) showed that this is incorrect.” However the IOC says “\textit{Oxyura ferruginea} is split from \textit{O. jamaicensis} (Ridgely & Greenfield 2001; Jaramillo 2003); H&M recognize; SACC does not.

**CHACHALACA, GUANS & CURASSOWS**

**Andean Guan - \textit{Penelope montagnii}**

Common in the cloud forest especially around Wayqecha and Cock of the Rock Lodge – great views! In Greek mythology Penelope was daughter of Icarus and wife of Ulysses, King of Ithaca.

**Spix’s Guan - \textit{Penelope jacquacu}**

Seen at Amazonia Lode. Named after the German naturalist and collector in Brazil (1781-1826) Johann Baptist Ritter von Spix

**Blue-throated Piping-Guan - \textit{Pipile cumanensis}**

Seen at Amazonia Lodge and Manu Wildlife Center.

**Speckled Chachalaca - \textit{Ortalis guttata}**

Common in more lightly wooded and forest edge areas in the lowlands, seen at Cock of the Rock Lodge, Amazonia Lodge, and Manu Wildlife Center.

**Razor-billed Curassow - \textit{Mitu tuberosa}**

3 in total seen in two consecutive days on the Madre de Dios River bank below Manu Wildlife Center

**STORKS**

**Wood Stork - \textit{Mycteria americana}**

Several encounters in the Lowland
Jabiru – *Jabiru Mycteria*
Great views of 1 on the Madre de Dios River in our way down to Boca Colorado

CORMORANTS
*Neotropic Cormorant - Phalacrocorax brasilianus*
Common in the Amazonian lowlands – but surprisingly we saw a good number on only one day on our way down to MWC from Amazonia

HERONS & BITTERNS
*Fasciated Tiger-Heron - Tigrisoma fasciatum*
1 seen along the Alto Madre de Dios River on our way down to Manu Wildlife Center

*Rufescent Tiger-Heron - Tigrisoma lineatum*
1 immature seen at Cocha Camungo
Agami Heron – *Agamia agami*
An immature seen very well at the small lagoon at Amazonia Lodge – **VULNERABLE**

**Striated Heron - Butorides striatus**
Quiet common in the Lowland – seen at Amazonia Lodge and Manu Wildlife Center

**Cocoi Heron - Ardea cocoi**
Common in the Manu Lowlands along the River and a nesting colony at Cocha Blanco;
The South American Checklist committee says “Formerly (e.g., Meyer de Schauensee 1970) known as “White-necked Heron,” but this name is also used (e.g., Martínez-Vilata & Motis 1992) for Old World Ardea pacifica.”

**Great Egret - Ardea albus**
Commonly seen along rivers and lakes

**Capped Heron - Pilherodius pileatus**
Commonly seen along the Madre de Dios River around Manu Wildlife Center. This is the heron with shallow wing beats!

**Snowy Egret - Egretta thula**
Very common bird on the Madre de Dios River

**IBIS & SPOONBILLS**

**Puna Ibis – plegadis ridgwayi**
Quiet common

**Andean Ibis - Theristicus branickii**
1 seen and photographed on the Manu road a bit after Pampayacta pass in the higher mountains in our way to Wayqecha

**Roseate Spoonbill – Ajaia ajaja**
3 seen on the way down to Manu Wildlife Center and 10+ seen in our way down to Boca Colorado along the Madre de Dios River – great views!

**AMERICAN VULTURES**

**Turkey Vulture - Cathartes aura**
Common. Jaramillo (2003) suggested that the resident tropical subspecies *ruficollis* and the southern subspecies group (*jota* and "*falklandica"*) might merit recognition as separate species from the northern *Cathartes aura* group.

**Greater Yellow-headed Vulture - Cathartes melambrotus**
Common in the Manu lowlands

**Black Vulture - Coragyps atratus**
Common.
King Vulture - *Sarcoramphus papa*
Seen in three different days in the Manu Lowland total – 5 in total

**KITES, HAWKS & EAGLES**

**Gray-headed Kite - *Leptodon cayanensis***
1 seen well from the canopy platform at Manu Wildlife Center – just CG and I

**Swallow-tailed Kite - *Elanoides forficatus***
2 seen at the first day and 12+ nest day at Amazonia Lodge

**Black-and-chestnut Eagle - *Spizaetus isidori***
One immature seen perched across the valley above Cock of the Rock Lodge. Named after Isidore Geoffrey Saint – Hilliaire 1805-1861 French zoologist. **ENDANGERED**

**Slender-billed Kite – *Heliolestes hamatus***
3 seen in total soaring above us when we were on the catamaran at Cocha Blanco

**Semicollared Hawk – *Accipiter collaris***
One seen in flying a little bit below Wayqecha Biological Station - long enough view for CG to add another important target for him – **NEAR THREATENED**

![Semi-collared Hawk- Alex Durand](image)

**Crane Hawk – *Geranospiza caerulescens***
Seen in two different days around Manu Wildlife Center
Slate-colored Hawk - *Buteogallus schistacea*
One from the canopy platform at Manu Wildlife Center

Roadside Hawk - *Rupornis magnirostris*
Common in the Lowlands

White-tailed Hawk - *Geranoaetus albicaudatus*
One seen from the road perched in the rain in our way to Puerto Maldonado

White Hawk – *Pseudaster albicollis*
One seen in fly at Amazonia Lodge

White-throated Hawk - *Buteo albigula*
Seen twice below Wayqecha in the Manu cloud forest – a female and an immature.

**LIMPKIN**
Limpkin - *Aramus guarauna.*
Two seen really well at Cocha Blanco ox-bow Lake

**RAILS & CRAKES**
Gray-necked Wood-Rail - *Aramides cajanea*
Common at Amazonia Lodge

Uniform Crake – *Amçaurolimnas concolor*
Heard at Amazonia Lodge

Rufous-sided Crake – *Laterallus melanophaeus*
Heard at Cocha Camungo

Gray-breasted Crake - *Laterallus exilis*
1 seen well at Cocha Blanco ox-bow Lake

Azure Gallinule - *Porphyrio flavirostris*
One seen at Cocha Blanco ox-bow Lake

**FINFOOTS**
Sungrebe - *Heliornis fulica*
1 seen at Cocha Camungo

**SUNBITTERNS**
Sunbittern – *Eurypyga helias*
1 seen in the little creek near Santa Rosa in our way to Puerto Maldonado
**PLOVERS**

*Collared Plover - Charadrius collaris*
3 seen on the Madre de Dios River bank in our way to Boca Colorado

*Pied Lapwing (Plover) - Vanellus (Haploxypterus) cayanus*
Seen in two separate days around Manu Wildlife Center

*Southern Lapwing - Vanellus chilensis*
6 in total seen on the Madre de Dios River bank

*Andean Lapwing, Vanellus resplendens*
2 seen in the higher Andes on the Manu road on our way to Wayqecha

**STILTS**

*Black-necked (White-backed) Stilt – Himantopus (melanurus) mexicanus*
1 seen on the Madre de Dios River on our way to Atalaya from Manu Wildlife Center

**SANDPIPERS AND SNIPES**

*Spotted Sandpiper - Actitis macularia*
Common along the Madre de Dios River bank

*Wilson’s Phalarope – Phalaropus tricolor*
1 seen at the little lake near Sacsayhuaman Inca ruins in our way to Wayqecha

**JACANAS.**

Seen at Cocha Camungo and a 3 more in the way to Puerto Maldonado

**GULLS & TERNs**

*Large-billed Tern - Phaetusa simplex*
Seen several times on the Madre de Dios River between Amazonia lodge and Manu Wildlife Center and also at Cocha Blanco ox-bow Lake and 15+ in the way to Boca Colorado.

*Yellow-billed Tern – Sterna superciliaris*
2 seen in along the Madre de Dios River in our way down to Boca Colorado

**SKIMMERS**

*Black Skimmer - Rynchops niger*
5 seen in the Lowlands along the Madre de Dios River in our way down to Boca Colorado
PIGEONS AND DOVES

Scaled Pigeon – *Patagioenas speciosa*
A nice surprise to see one at the Blanquillo clay lick right by the vegetation above the clay lick

Spot-winged Pigeon – *Patagioenas maculosa*
A few seen in the way to Wayqecha

Band-tailed Pigeon - *Patagioenas fasciata*
Common in the higher Cloud Forest, seen around Wayqecha

Pale-vented Pigeon – *Patagioenas cayennensis*.
Common at the Blanquillo macaw clay lick and also at Cocha Blanco

Plumbeous Pigeon - *Patagioenas plumbea*
One seen from the canopy platform at Manu Wildlife Center

Ruddy Pigeon - *Patagioenas subvinacea*
Seen twice around Manu Wildlife Center. VULNERABLE

White-tipped Dove - *Leptotila verreauxi decipiens*
Seen at Amazonia Lodge

Grey-fronted Dove – *Leptotila rufaxilla*
Seen at Amazonia lodge. This and the previous species have complicated distribution with places where they occur side by side and other where only one occurs or is more common. In this part of Peru the two species appear to segregate one another by elevation. White-tipped is found in the foothills and Gray-fronted in the lowlands. At least one is far more common than the other at different elevations.

Ruddy Ground-Dove – *Columbina talpacoti*
2 seen along the road in our way to Puerto Maldonado

HOATZIN

Hoatzin - *Opisthocomus hoazin*
Common in the Lowlands – seen at Amazonia Lodge and also at Cocha Blanco and Cocha Camungo oxbow Lake

CUCKOOS

Little Cuckoo – *Coccycua minuta*
2 seen at Cocha Blanco oxbow Lake

Squirrel Cuckoo - *Piaya cayana* *

Greater Ani - *Crotophaga major*
Common in the lowland always near water – seen at Cocha Camungo and Cocha Blanco ox-bow lakes

**Smooth-billed Ani - Crotophaga ani**
Common in the open secondary forest in the Lowland rainforest

**Pavonine Cuckoo – Dromococcyx pavoninus**
An amazing view and pictures of one on the collpa trail at Manu Wildlife Center

---

**Rufous-vented Ground-Cuckoo – Neomorphus geoffroyi**
Another nice surprise of one at Amazonia Lodge crossing 3 times the wide open jeep track trail – one of the really rarer birds to see

**OWLS**
**Rufescent Screech-Owl – Megascosps ingens**
Tawny-bellied Screech Owl - *Megascops (usta) watsonii*
1 seen at Amazonia lodge, just around the garden

White-throated Screech Owl – *Megascops albogularis*
Very nice views of one individual above Wayqecha

Crested Owl – *Lophostrix cristata* *

Spectacled Owl – *Pulsatrix perspicillata* *

Band-bellied Owl – *Pulsatrix melanota*
Great views of one at Cock of the Rock Lodge just around the garden

Black-banded Owl – *Cicaba huhula*
Very good view of one at Amazonia Lodge

Amazonian Pygmy-Owl - *Glaucidium hardyi* *

Yungas Pygmy-Owl – *Glaucidium bolivianum*
3 individuals seen around Wayqecha in one day

POTOOS
Andean Potoo – *Nyctibius maculosus*.
One seen roosting in the Cloud forest between Rocotal and mirador San Pedro

NIGHTHAWKS & NIGHTJARS
Sand-colored Nighthawk - *Chordeiles rupestris*
Hundreds of them seen rusting on logs and stony beaches on the Madre de Dios River in our way down to Boca Colorado and 10+ previously around Manu Wildlife Center

Common Pauraque – *Nyctidromus albicollis* *

Swallow-tailed Nightjar – *Uropsalis segmentata*
A male responded really well to playback above Wayqecha – amazing views!

Ladder- tailed Nightjar – *Hydropsalis climacocerca*
Seen in three different days along the Madre de Dios River in our early departures from the Lodge

SWIFTS
Chestnut-collared Swift – *Streptoprocne rutilus*
10+ seen at Amazonia Lodge

White-collared Swift – *Streptoprocne zonaris*
Common
Pale-rumped Swift – *Chaetura egregia*
Seen at Amazonia Lodge and Manu Wildlife Center

Short-tailed Swift – *Chaetura brachyura*
4 seen near Pillahuata in our way to Cock of the Rock Lodge from Atalaya

Neotropical Palm Swift – *Tachornis squamata*
Common in the Lowlands – seen at Manu Wildlife Center

**HUMMINGBIRDS**

Rufous-breasted Hermit – *Glaucis hirsuta*
1 seen at around the garden at Manu Wildlife Center

Pale-tailed Barbthroat – *Threnetes leucurus*
One seen really well at Amazonia Lodge

Green Hermit – *Phaethornis guy*
One seen at Cock of the Rock Lodge

Great-billed Hermit – *Phaethornis malaris*
Seen twice at Amazonia Lodge

White-bearded Hermit - *Phaethornis hispidus*
Seen at Amazonia Lodge

E Koepcke’s Hermit – *Phaethornis koepckeae*. 
Seen at Amazonia Lodge on two consecutive days. A Peruvian endemic and a specialty of Amazonia Lodge. This bird was named after the German Ornithologist Maria Koepcke. She conducted bird studies in Peru and wrote the seminal book “The Birds of the Department of Lima”. She was killed in a plane crash in Peru in 1977. **Near Threatened**

Needle-billed Hermit – *Phaethornis philippii*
Amazing views and pictures along the collpa trail at Manu Wildlife Center – another important target for CG.

Reddish Hermit – *Phaethornis ruber*
Quiet common in the lowland rainforest

RR White-browed Hermit – *Phaethornis stuarti*
1 seen at Cock of the Rock Lodge

Blue-fronted Lancebill – *Doryfera johannae*
One seen really well at Quita Calzon, below Cock of the Rock Lodge
**Wedge-billed Hummingbird – Schistes geoffroyi**  
Great views at Cock of the Rock Lodge

**Black-eared Fairy – Heliothryx aurita**  
1 seen at Amazonia Lodge and another one at Manu Wildlife Center

**Amethyst-throated Sunangel - Heliangelus amethysticollis**  
Common in the higher cloud forest around the Wayqecha

**Wire-crested Thorntail – Discosura popelairii**  
Males and females seen commonly at Cock of the Rock Lodge NEAR THREATNED

**E Peruvian Piedtail – Phlogophilus harterti**  
A male seen very well at Quita Calzon – another of CG’s targets NEAR THREATNED

**Speckled Hummingbird - Adelomyia melanogenys**  
Common at Cock-of-the-Rock Lodge.

**Long-tailed Sylph – Aglaiocercus kingi**  
Quiet common at Cock of the Rock Lodge. This long-tailed hummingbird was named for Admiral Philip Parker King, British marine surveyor, naturalist and traveler in tropical America 1825-1830.

**Andean Hillstar – Oreotrochilus estella**  
2 seen near Acjancaco in our way to Wayqecha
Rufous-capped Thornbill – *Chalcostigma ruficeps*
Seen in three consecutive days at Wayqecha

Tyrian Metaltail – *Metallura tyrianthina smaragdicollis*
Common in the higher cloud forest – seen around Wayqecha. Named after the color Tyrian purple. Variously known as Royal purple, Tyrian purple, purple of the ancients, this ancient dyestuff, mentioned in texts dating about 1600 BC, was produced from the mucus of the hypo branchial gland of various species of marine mollusks, notably Murex. Although originating in old port of Tire in modern day Syria (hence the name), man’s first large scale chemical industry spread throughout the world. With the decline of the Roman Empire, the use of the dye also declined and large-scale production ceased with the fall of Constantinople in 1453. It was replaced by other cheaper dyes like lichen purple and madder

Collared Inca – *Coeligena torquata*
Seen bellow the tunnels – in two consecutive days

Bronzy Inca – *Coeligena coeligena*
2 seen at Rocotal area in the Manu cloud forest

Violet-throated Starfrontlet – *Coeligena violifer osculans*
Seen every day around Wayqecha

Great Saphirewing – *Pterophanes cyanopterus*
A female seen above Wayqecha

Booted Racket-tail – *Ocreatus underwoodii*
Common at Cock of the Rock Lodge. The “Racquet-tailed Puffleg was unknown in life but sepciemens existed in various London cabinets, whence a drawing was sent to Lesson (1832) by Mr. Underwood on behalf of Charles Stokes a London stockbroker and collector.

Gould’s Jewelfront – *Helioaxa aurescens*
One seen well at Amazonia Lodge

Violet Fronted Brilliant – *Helioaxa leadbeateri*
Common at Cock of the Rock Lodge’s feeders

Blue-tailed Emerald – *Chlorostilbon mellisugus*
Seen commonly at Amazonia lodge in the garden feeding in verbena flowers.

Violet-headed Hummingbird – *Klais guimeti*
Seen every day at Amazonia Lodge.

Gray-breasted Sabrewing – *Campylopterus largipennis*
Common at Amazonia Lodge.
Fork-tailed Woodnymph – *Thalurania furcata*
Seen at Amazonia Lodge and Manu wildlife Center - very common.

Many-spotted Hummingbird – *Taphrolesbia hypostictus*
Very good views at Cock of the Rock Lodge

White-chinned Sapphire – *Hylocharis cyanus*
Seen in two consecutive days at Manu Wildlife Center

**TROGONS AND QUETZALS**

Golden Headed Quetzal – *Pharomachrus auriceps*
One seen in the cloud forest above Cock of the Rock Lodge

Black-tailed Trogon - *Trogon melenurus*
One seen at Manu Wildlife Center

Collared Trogon – *Trogon collaris*
Seen in three consecutive days at Manu Wildlife Center

Masked Trogon – *Trogon personatus*
Seen in two consecutive days at Wayqecha

Blue-crowned Trogon – *Trogon curucui*
2 seen at Amazonia Lodge

Amazonian Trogon – *Trogon ramonianus*
1 seen at Amazonia Lodge. The subspecies *ramonianus* and *caligatus* were formerly (e.g., Cory 1919, Pinto 1937) considered separate species from *Trogon violaceus* (Violaceous Trogon) but Peters (1945) considered them all conspecific. Ridgely & Greenfield (2001) considered *caligatus* (Gartered Trogon) of Middle America and northwestern South America to be a separate species from *Trogon violaceus*, and this was followed by Hilty (2003); Genetic data (DaCosta & Klicka 2008) indicate that *caligatus* is basal to a group that includes Amazonian *T. violaceus*, *T. curucui*, and *T. surrucura* (and that Amazonian *violaceus* may be paraphyletic with respect to the latter two species). SACC proposal was passed to recognize *caligatus* as a species. SACC proposal passed to recognize *ramonianus* as a separate species from *T. violaceus*.

<table>
<thead>
<tr>
<th>So in short you have 3 species that came out of Violaceous Trogon.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Gartered Trogon <em>Trogon caligatus</em> – S. Mexico to NW Peru</td>
</tr>
<tr>
<td>Amazonian Trogon - <em>Trogon ramonianus</em> – the Amazon Basin</td>
</tr>
<tr>
<td>Guianan Trogon –<em>Trogon viridis</em> – Trinidad and the Guianan Shield</td>
</tr>
</tbody>
</table>

SACC proposal was passed to recognize *caligatus* as a species. SACC proposal passed to recognize *ramonianus* as a separate species from *T. violaceus*. SACC proposal was passed to recognize *caligatus* as a species.
KINGFISHERS

Ringed Kingfisher – *Megaceryle torquata*
Quiet common in the lowland rainforest – seen at Cocha Blanco ox-bow Lake

Amazon Kingfisher – *Chloroceryle amazona*
Common long the Madre de Dios River.

Green Kingfisher – *Chloroceryle americana*
Seen at Cocha Blanco ox-bow Lake

MOTMOTS

Broad-billed Motmot – *Electron platyrhynchum*.
Seen at Manu Wildlife Center

Amazonian Motmot – *Momotus momota*

Andean Motmot – *Momotus aequatorialis*
Common at Cock of the Rock Lodge

JACAMARS

RR Purus Jacamar – *Galbalcyrhynchus purucianus*
4 seen at Cocha Camungo and 6 more at Cocha Blanco Ox-bow Lake. Named for the Purus River that runs from eastern Peru into Brazil
**RR Bluish-fronted Jacamar — Galbula cyanescens**
Common in the Lowland rainforest, seen at Amazonia Lodge and at Manu Wildlife Center

**Paradise Jacamar — Galbula dea** *

**Great Jacamar — Jacamerops aureus**
One seen really well along the collpa trail at Manu Wildlife Center

**PUFFBIRDS AND NUNBIRDS**

**White-necked Puffbird — Notharchus hyperrhynchus**
One seen from the canopy platform at Cocha Camungo

**Pied Puffbird — Notharchus tectus** *

**Chestnut-capped Puffbird — Bucco macrodactylus**
2 seen at Amazonia Lodge

**Western Striolated Puffbird — Nystalus obamai**
One seen from the little tower at Amazonia Lodge

**Black-streaked Puffbird — Malacoptila fulvogularis**
2 seen around Rocotal in our way down to Cock of the Rock Lodge from Wayqecha

**Lanceolated Monklet — Micromonacha lanceolata**
One seen really well at Quíta Calzon in our way down to Amazonia Lodge from Cock of the Rock Lodge
Black-fronted Nunbird — *Monasa nigrifrons*
Very common in the Amazon lowlands. Monasa is Greek for solitary or a monk a reference to the plain plumage and quiet behavior of the Nunbirds.

White-fronted Nunbird — *Monasa morphoeus*
A few seen at Manu Wildlife Center. Morpheus from Greek mythology – the god of sleep and dreams

Swallow-wing — *Chelidoptero tenebrosa*
Common in lowland along the Rivers – seen at Amazonia Lodge and around MWC

**NEW WORLD BARBETS**

Gilded Barbet — *Capito auratus*

Lemon-throated Barbet — *Eubucco richardsoni*
2 seen at Amazonia Lodge

**RR Scarlet-hooded Barbet** — *Eubuco tucincae*
Another special CG target seen at Amazonia Lodge

Versicolored Barbet — *Eubuco versicolor.*
3 in total seen around Cock of the Rock Lodge. **NEAR THREATNED**
TOUCANS

Channel-billed Toucan – *Ramphastos vitellinus*
Seen twice around Manu Wildlife Center

White-throated Toucan – *Rumphastos tucanus*
1 seen at Manu Wildlife Center and 5 more seen on the road between Boca Colorado and Puerto Punkiri in our way to Puerto Maldonado

Emerald (Black-throated) Toucanet – *Aulacorhynchus (atrigularis) prasinus*
1 seen at Amazonia Lodge

Chestnut-tipped Toucanet - *Aulacorhynchus derbianus*
One seen and photograph below Cock of the Rock Lodge

**RR Blue-banded Toucanet – Aulacorhynchus coeruleicinctis**
Great views of one individual at Rocotal

Golden-collared Toucanet – *Selenidera reinwardtii*
2 seen along the collpa trail at Manu Wildlife Center

Chestnut-eared Aracari – *Pteroglossus castanotis*
1 seen in our way to Puerto Maldonado

Curl Crested Aracari – *Pteroglossus beaharnaesii*
Seen twice around Manu Wildlife Center. The cool afro crest feels like plastic to the touch! (On museum specimens)

WOODPECKERS & PICULETS

**Rufous-breasted Piculet** – *Picumnus rufiventris*
One seen at Amazonia Lodge

**RR Fine-barred Piculet** – *Picumnus subtilis*
Also seen at Amazonia Lodge

**Yellow-tufted Woodpecker** – *Melanerpes cruentatus*
Seen at Amazonia Lodge and Manu Wildlife Center

**Bar-bellied Woodpecker** – *Veniliornis nigriceps*
1 seen above Wayqecha

**Little Woodpecker** – *Veniliornis passerinus*

**Golden Olive Woodpecker** – *Piculus rubiginosus*
One seen at Cock of the Rock Lodge

**Crimson-mantled Woodpecker** – *Piculus rivolii*
2 seen bellow Wayqecha Biological Station – great views!

**Rufous-headed Woodpecker** – *Celeus spectabilis*

**Lineated Woodpecker** – *Dryocopus lineatus*
Seen at Manu Wildlife Center

**Red-necked Woodpecker** – *Campephilus rubricollis*
One seen at Manu Wildlife Center

**Crimson-crested Woodpecker** – *Campephilus melanoleucos*
Seen at Amazonia Lodge

CARACARAS & FALCONS

**Black Caracara** – *Daptrius ater*
Quiet common along the riverbanks in the Manu lowlands

**Red-throated Caracara** – *Ibycter americanus*

**Mountain Caracara** – *Phalcoboenus megalopterus*
Quiet common in the Andes – seen in the way to Wayqecha

**Southern Caracara** – *Caracara plancus*
Two seen on the road in our way to Puerto Maldonado
American Kestrel – *Falco sparverius*.  
Common in the Andes

Bat Falcon – *Falco rufigularis*  
One seen around Manu Wildlife Center

Peregrine Falcon – *Falco peregrinus*  
2 seen along the river in our way back to the Lodge from Antthrush trail at Manu Wildlife Center

**PARROTS**

Amazonian Parrotlet – *Nannopsittaca dachilleae*  

Cobalt-winged Parakeet – *Brotogeris cyanoptera*  
Common in the Amazon Lowlands – seen at Amazonia Lodge

Tui Parakeet – *Brotogeris sanctithomae*  
1 seen at the Blanquillo Macaw clay lick and 4 seen at Cocha Camungo

Orange-cheeked Parrot – *Pyrilia barrabandi*  
A few seen at the Blanquillo macaw clay lick

Blue-headed Parrot - *Pionus menstruus*  
Common in the Amazon lowlands – seen at Amazonia Lodge and lot of them at Blanquillo macaw clay lick

Speckle-faced Parrot - *Pionus tumultuosus tumultuosus*  
1 seen below the tunnels – bellow Wayqecha

Yellow-crowned Amazon – *Amazona ochrocephala*  
A few seen at the Blanquillo clay lick – great views!

Scaly-naped Amazon – *Amazona mercenaria*  

Mealy Amazon – *Amazona farinosa*.  
Seen at Macaw Clay lick very common. Farinosa is Latin for “Sprinkled with Flour” referring to the “dusted” appearance of this Amazon.

Dusky-billed Parrotlet – *Forpus sclateri*  
Seen at Manu Wildlife Center

Dusky-headed Parakeet – *Aratinga weddellii*  
Common in Amazon lowlands – seen at Amazonia Lodge and Manu Wildlife Center
Red-bellied Macaw – *Orthopsittaca manilata*
Seen in flight at Manu Wildlife Center and few more in our way to Puerto Maldonado

Blue-headed Macaw – *Primolius couloni*
6+ seen at the little clay lick at La Cachuela, our last day outside of Puerto Maldonado - **VULNERABLE**

Blue-and-Yellow Macaw – *Ara ararauna*
Common in Amazon Lowlands

Military Macaw – *Ara militaris*
Scope views of at least 10 at Amazonia Lodge - **VULNERABLE**

Scarlet Macaw - *Ara macao*
Common in Manu but scarcer than the following species

Red and Green Macaw – *Ara chloropterus*
Seen at the Blanquillo Macaw Clay lick. Star performer at the Macaw Lick. Lots of frolicking birds all over the place.

Chestnut-fronted Macaw - *Ara severa*
Common – seen at Amazonia Lodge and Manu Wildlife Center

White-eyed Parakeet – *Psitticara leucophthalmus.*
Seen at Cock of the Rock Lodge, Amazonia Lodge and Manu Wildlife center

**ANTBIRDS**

Chestnut-shouldered Antwren – *Euchreposis callinota*
1 seen at Manu Wildlife Center

Yellow-rumped Antwren – Angela Pattison
**Yellow-rumped Antwren** – *Euchrepomis sharpei*
Great views at Cock of the Rock Lodge, just at the garden – **ENDANGERED**

**Fasciated Antshrike** – *Cymbilaimus lineatus*
2 seen at Manu Wildlife Center

**Great Antshrike** – *Taraba major*
A male seen at Anthrush trail around Manu Wildlife Center

**Chestnut-backed Antshrike** – *Thamnophilus palliatus*
1 seen near Pillcopata in our way down from Cock of the Rock Lodge to Amazonia Lodge

**Plain-winged Antshrike** - *Thamnophilus schistaceus*
Seen in two consecutive days at Manu Wildlife Center

**Variable Antshrike** – *Thamnophius caerulescens*

**Dusky-throated Antshrike** – *Thamnomanes ardesiacus*
Seen at Manu wildlife Center common in the trails usually with mixed understory flocks

**Bluish-slate Antshrike** – *Thamnomanes schistogynus*
Seen at Amazonia lodge - the leader of the understory mixed flocks.

**Plain-throated Antwren** – *Isleria hauxwelli*
1 seen around Manu Wildlife Center

**White-eyed Antwren** – *Isleria hauxwelli*
3 in total seen On two different days at Manu Wildlife Center

**Napo Stipple-throated Antwren** – *Epinecrophylla haematonota*
1 seen at Manu Wildlife Center

**Pygmy Antwren** – *Myrmotherula brachyura*
3 in total seen at Manu Wildlife Center

**Sclater’s Antwren** – *Myrmotherula sclateri*

**Ornate Antwren** – *Epinecrophylla ornate meridionalis*
Seen below Cock of the Rock Lodge

**Rufous-tailed Antwren** – *Epinecrophylla erythrura*
Heard at Quite Calzones below Cock of the Rock Lodge
Amazonian Streaked Antwren – *Myrmotherula multostriata*
Seen in several occasion around Manu Wildlife Center - a waterside specialist

Stripe-chested Antwren – *Myrmotherula longicauda*
Seen in two consecutive days bellow Cock of the Rock Lodge

White-flanked Antwren – *Myrmotherula axillaris*
Seen in several occasion around Manu Wildlife Center – common with understory flocks. Willis (1984), Ridgely & Tudor (1994), Hilty (2003), and Zimmer & Isler (2003) noted that vocal differences among several subspecies of *Myrmotherula axillaris* suggest that more than one species is involved

Long-winged Antwren – *Myrmotherula longipennis garbei*
Seen along the trail in our way back from Cocha Camungo around Manu Wildlife Center - common in understory mixed flocks

Gray Antwren – *Myrmotherula menetriesii*
Seen around Manu Wildlife Center

Yellow-breasted Antwren – *Herpsilochmus axillaris*

Dot-winged Antwren – *Microrhopias quixensis*
2 seen near Chontachaca village in our way down to Amazonia Lodge

Striated Antbird – *Drymophila devillei*
One individual seen between Pillcopata and Atalaya village on our way to Amazonia Lodge – great views!

Gray Antbird – *Cercomacra cinerascens*
1 seen along the collpa trail at Manu Wildlife Center
**RR Manu Antbird – Cercomacra manu**  
Great views in the bamboo forest at Antthrush trail below Manu Wildlife Center

**Riparian Antbird – Cercomacroides fuscicauda***

**Black Antbird – Cercomacroides serva***

**White-backed Fire-eye – Pyriglena leuconota marcapatensis***

**White-browed Antbird – Myrmoborus leucophrys**  
1 seen at Amazonia Lodge and 2 at Manu Wildlife Center

**Black-faced Antbird – Myrmoborus myotherinus**  
1 seen at Manu Wildlife Center

**Peruvian Warbling Antbird – Hypocnemis peruviana**  
1 seen really well by the little creek near the canopy platform at Manu Wildlife Center

**Silvered Antbird – Sclateria naevia**  
Good views at Cocha Blanco ox-bow Lake

**RR White-lined Antbird – Pernoctola lophotes**  
Seen along the Antthrush trail around Manu Wildlife Center in bamboo. Another bamboo specialist! Range just creeps over the border into NW Bolivia. **NEAR THREATENED**

**Chestnut-tailed Antbird – Myrmeciza hemimelaena**  
2 seen well at Amazonia Lodge

**Plumbeous Antbird – Myrmeciza hyperythra***

**RR Goeldi´s Antbird – Myrmeciza goeldii**  
1 seen at Antthrush trail around Manu Wildlife Center. Favors Bamboo but is not restricted to it. Named for Emil August Goeldi, German naturalist resident in Brazil and author of “Aves do Brasil” 1894

**Sooty Antbird – Myrmecisa fortis**  
One seen along the collpa trail at Manu Wildlife Center

**Black-throated Antbird – Myrmecisa atrothorax**  
2 seen at Amazonia Lodge

**White-throated Antbird – Gymnopithys salvini**  
3 in total seen along the collpa trail with ant swarm at Manu Wildlife Center
White-throated Antbird – Ian Merrill

Hairy-crested Antbird – *Rhegamatorhina melanosticta*
4 in total seen with ant swarm along the collpa trail at Manu Wildlife Center

Hairy-crested Antbid – Alex Durand
Spot-backed Antbird – *Hylophylax naevia*

Common Scale-backed Antbird – *Willisornis poecilinota griseiventralis*
2 seen along the collpa trail at Manu Wildlife Center – also with the ant swarm

Black-spotted Bare-eye – *Phlegopsis nigromaculata*

**GNATEATERS**

Slaty Gnateater – *Conopophaga peruviana*
At Amazonia Lodge

**ANTPITTAS**

Red and White Antpitta – *Grallaria erythroleuca*
2 seen really well below Wayqecha

Red and White Antpitta – Ian Merrill
Rufous (Urubamba) Antpitta – *Grallaria rufula occabambae*
3 in total seen near Wayqecha Biological Station

Amazonian Antpitta – *Hyllopezus berlepschi*
1 individual seen at Amazonia Lodge

Thrush Like Antpitta – *Myrmotherola campanisona*
After a hard effort we finally saw one really well at Amazonia Lodge

Ochre-breasted Antpitta - *Grallaricula flavirostris boliviana* NEAR THREATENED

Rusty-breasted Antpitta – *Grallaricula ferrugineipectus*
1 seen briefly below Wayqecha

TAPACULOS
Rusty-belted Tapaculo – *Liosceles thoracicus*

Trilling Tapaculo – *Scytalopus parvirostris*
Seen below Wayqecha Biological Station

White-crowned Tapaculo – *Scytalopus atratus*
Heard above Cock of the Rock Lodge

RR Diademmed Tapaculo – *Scytalopus schulenbergi*
An excellent view and picture near Acjanaco in our way to Wayqecha Biological Station

ANTHRUSHES
Rufous-capped Antthrush – *Fornicarius colma*

Black-faced Antthrush – *Formicarius analis*
1 seen at Manu Wildlife Center

Rufous-fronted Antthrush – *Formicarius rufifrons*

Striated Antthrush – *Chamaea nobilis*

Barred Antthrush – *Chamaea mollissima yungae*

OVENBIRDS
Common Miner – *Geositta cunicularia*
10+ seen by the Pampayacta pass in our way to Wayqecha

Slender-billed Miner – *Geositta tenuirostris*
3 seen very well after Pampayacta pass on the Manu road in our way to Wayqecha from Cusco
Olivaceous Woodcreeper – *Sittasomus griseicapillus amazonus*
Seen at Manu Wildlife Center

Long-tailed Woodcreeper – *Deconychura longicauda pallida*
1 seen at Manu Wildlife Center

Plain-browned Woodcreeper - *Dendrocincla fuliginosa*
One seen at Manu Wildlife Center

White-chinned Woodcreeper – *Dendrocincla merula*
Very good view of 2 individuals at Amazonia and Manu Wildlife Center

Wedge-billed Woodcreeper – *Glyphorynchus spirurus*
Common in the lowland rainforest – seen at Manu Wildlife Center

Cinnamon-throated Woodcreeper - *Dendrexetastes rufigula*
2 seen at Amazonia Lodge in the garden. Always present at clearings of houses or lodges where they roost

Long-billed Woodcreeper - *Nasica longirostris*
Seen in several days at Manu Wildlife Center

Black-banded Woodcreeper – *Dendrocolaptes picumnus*
Seen at Amazonia Lodge and Manu Wildlife Center

Elegant (Juria) Woodcreeper – *Xiphorhynchus elegans juruanus*
Seen in two different days at Manu Wildlife Center

Buff-throated Woodcreeper – *Xiphorhynchus guttatus*
The most common Lowland rainforest Woodcreeper, seen at Manu Wildlife Center; some authorities consider Buff throated Woodcreeper of SE Brazil as distinct but some authorities consider the reason for splitting weak; seen at Amazonia Lodge.

Olive-backed Woodcreeper – *Xiphorhynchus triangularis*
Seen above Cock of the Rock Lodge.

Red-billed Scythebill – *Campylorhamphus trochilirostris*
1 seen at Amazonia Lodge

Montane Woodcreeper – *Lepidocolaptes lacrymiger*
Fairly common in the cloud forest – seen bellow Wayqecha and at Rocotal area

Lineated (Inambari) Woodcreeper – *Lepidocolaptes (albolineatus) fatimalima*
Seen in two consecutive days at Manu Wildlife Center

Plain Xenops – *Xinups minutus*
2 seen at Amazonia Lodge

**Point-tailed Palmcreeper – Berlepschia rikeri***

**Streaked Tuftedcheek – Pseudocolaptes boissonneautii**
Quiet common in the cloud forest – 2 seen around Wayqecha

**Rufous-tailed Xenops – Microxenops milleri**
One seen along the collpa trail at Manu Wildlife Center

**Pale-legged Hornero - Furnarius leucopus.**
Common at Amazonia Lodge, but also seen at Manu Wildlife Center in the gardens

**Chestnut-winged Foliage-gleaner – Philydor erythropterus**
2 seen along the collpa trail at Manu Wildlife Center

**Buff-fronted Foliage-gleaner – Philydor rufus**
Seen twice at Cock of the Rock Lodge

**Montane Foliage-gleaner Anabacerthia striaticollis**
Fairly common in the Cloud forest; seen at Cock of the Rock Lodge

**Rufous-tailed Foliage-gleaner - Anabecerthia ruficaudatus**
2 seen at Manu Wildlife Center

**RR Peruvian Recurvebill – Syndactyla ucayalae**
Seen in two different occasions on the Antthrush trail bellow Manu Wildlife Center – **NEAR THRETONED**
Chestnut-winged Hookbill – *Ancistrops strigilatus*
1 seen along the collpa trail at Manu Wildlife Center

Black-billed Treehunter – *Thripadectes melanorhynchus*
1 seen at Cock of the Rock Lodge

Eastern Woodhaunter – *Automolus subulatus*
Good view of 2 at Amazonia Lodge

Olive-backed Foliage-gleaner – *Automolus infuscatus*
2 seen at Manu Wildlife Center

Pearled Treerunner - *Margarornis squamiger*
Common in the higher Cloud Forests seen around Wayqecha

RR Puna Thistletail – *Asthenes helleri*
2 seen below Acjanaco in our way down to Wayqecha. Named for Edmund Heller (1875-1944) US naturalist and collector who worked at the Field Museum of Natural History. VULNERABLE

Plain Softtail - *Thripophaga fusciceps dimorpha*
Very good views of 1 individual at Amazonia Lodge

Ash-browed Spinetail – *Cranioleuca curtata.*
1 seen at Cock of the Rock Lodge

E Marcapata Spinetail – *Cranioleuca marcapatae marcapatae*
Seen in two different days below Wayqecha in bamboo forest - great views. Named for the town of Marcapata not far from Cusco. VULNERABLE

E Creamy-crested Spinetail – *Cranioleuca albicapilla albicapilla* *

Azara’s Spinetail – *Synallaxis azarae urubambae*
Common in the Cloud Forest – seen around Wayqecha

Dark-breasted Spinetail – *Synallaxis albicularis*
Very good views of one individual around the edge of the vegetation at Cocha Camungo ox-bow Lake

RR Cabanis’s Spinetail – *Synallaxis cabanisi*
1 seen at Amazonia Lodge and another one at Manu Wildlife Center NEAR THREATENED

Plain-crowned Spinetail – *Synallaxis gujanensis*
2 at Amazonia Lodge – common just around the garden
TYRANT FLYCATCHERS

Forest Elaenia – *Myiopagis gaimardii*
Seen in two consecutive days at Manu Wildlife Center

White-throated Tyrannulet – *Mecocerculus leucophrys*
Common in the cloud forest - seen around Wayqecha and above Cock of the Rock Lodge

White-banded Tyrannulet – *Mecocerculus stictopterus*
Common in the cloud forest – seen from Wayqecha to Cock of the Rock Lodge

Ringed Antpipit – *Corythopis torquata*.
1 seen at Amazonia Lodge

**RR** Bolivian Tyrannulet – *Zimmerius bolivianus*
Seen in three consecutive days at Cock of the Rock Lodge

Slender-footed Tyrannulet – *Zimmerius gracilipes*
1 seen at Amazonia Lodge

Marble-faced Bristle Tyrant – *Phylloscartes ophthalmicus*
Seen at Cock of the rock lodge in mixed flocks

**RR** Cinnamon Faced Tyrannulet – *Phylloscartes parkeri*
Very good views at Quita Calzones in our way down to Amazonia Lodge

Streak-necked Flycatcher – *Mionectes striaticollis*
Quiet common in the cloud forest

Ochre-bellied Flycatcher – *Mionectes oleagineus*
1 seen at Amazonia Lodge

Sepia-capped Flycatcher – *Leptopogon amaurocephalus*
One seen at Manu Wildlife center

Scale-crested Pygmy Tyrant – *Lophotriccus pileatus*
1 seen around Cock of the Rock lodge

White-bellied Tody-Tyrant - *Hemitriccus griseipactus*

**RR** White-cheeked Tody-Flycatcher – *Poecilotriccus albifacies*
2 seen really well between Pillcopata and Atalaya in our way to Amazonia Lodge

Rusty-fronted Tody Flycatcher – *Poecilotriccus latirostre*
Good views of 1 individual at Ant thrush trail bellow Manu Wildlife Center
E Black-backed Tody-Flycatcher - *Poecilotriccus pulchellus*
2 seen near Chontachaca in our way to Amazonia. A localized Peruvian endemic
Spotted Tody-Flycatcher - *Todirostrum maculatum*
2 seen at the edge of the Camungo ox-bow lake.

Yellow-browed Tody-flycatcher – *Todirostrum Chrysocrotaphum*
1 seen at Amazonia Lodge

Olivaceous Flatbill - *Rhynchocyclus olivaceus*

Golden-crowned Spadebill - *Platyrinchus coronatus*
1 seen at Manu Wildlife Center

White-crested Spadebill – *Platyrinchus platyrinchos*
Also seen at Manu Wildlife Center

Cinnamon Flycatcher – *Pyrhrhosmyias cinnamomea*
Common in the Cloud Forest on the Manu Road

Euler’s Flycatcher - *Lathrotriccus euleri*
1 at Amazonia Lodge – on the ridge trail

Smoke-colored Pewee – *Contopus fumigatus*
Quiet common in the cloud forest on the Manu Road – 2 seen at Rocotal

Western Wood Pewee – *Contopus sordidulus*
1 seen at Cock of the Rock Lodge

Eastern Wood Pewee – *Contopus virens*
Seen every day at Amazonia Lodge

Drab Water-Tyrant - *Ochthornis littoralis*
Common along the Amazonian Rivers

**RR** Rufous-bellied Bush-Tyrant – *Myiotheretes fuscorufus*
1 seen below Wayqecha

**RR** Crowned (Kalinowski’s) Chat-tyrant - *Ochthoeca (spodionota) frontalis*
Another important target – 1 seen above Wayqecha

Rufous-breasted Chat-Tyrant - *Ochthoeca rufipectoralis*
Common in the cloud forest of Mau road – seen around Wayqecha

Brown-backed Chat-Tyrant - *Ochthoeca fumericolor*
2 seen in our detour at the Manu National park at Acjanaco (Tres cruces road) on our way to Wayqecha

Long-tailed Tyrant – *Colonia colonus*
Seen every day at Amazonia Lodge
Social Flycatcher – *Myiozetetes similis*
Common in Amazon lowlands

Lesser Kiskadee – *pitangus lictor*
Seen at Cocha Camungo and Cocha Blanco ox-bow Lakes

Lemon Browed Flycatcher – *Conopias cinchoneti*
Seen at Cock of the Rock Lodge.

Golden-crowned Flycatcher – *Myiodynastes chrysocephalus*

Boat-billed Flycatcher – *Magarynchus pitangua*
1 seen at Amazonia Lodge

Crowned Slaty Flycatcher - *Empidononous aurantioatrocristatus*
1 seen from the hide at Blanquillo macaw clay lick

Tropical Kingbird – *Tyrannus melancholicus*
Very common

Dusky-capped Flycatcher – *Myiarchus tuberculifer*
2 seen at Wayqecha

Short-crested Flycatcher – *Myiarchus ferox*
1 seen from the hide at Blanquillo macaw clay lick

Large-headed Flatbill – *Ramphotrigon megacephala*
One seen between Pillcopata and Atalaya – an obligate bamboo specialist

Rufous-tailed Flatbill – *Ramphotrigon ruficauda*
Very good views on the collpa trail at Manu wildlife Center

White-eyed (Dull-capped) Attila – *Attila bolivianus*
1 seen at Cocha Camungo trail

COTINGAS

RR Band-tailed Fruiteater – *Pipreola intermedia*
One seen below Wayqecha in our way down to Cock of the Rock Lodge

Barred Fruiteater – *Pipreola arcuate*
9 in total in two consecutive days around Wayqecha Lodge

Chestnut-crested Cotinga – *Ampelion rufaxilla*
1 seen in our way down to Cock of the Rock Lodge from Wayqecha – great views!
**Andean Cock-of-the-Rock** – *Rupicola peruviana*
We saw at the lek 7 individuals and few more around Cock of the Rock Lodge - good views of the Peruvian National bird

---

**Purple-throated Fruitcrow** – *Querula purpurata*
1 seen at Manu Wildlife Center

**Amazonian Umbrellabird** – *Cephalopterus ornatus*
2 seen at Quita Calzones in our way to Amazonia Lodge

**Spangled Cotinga** – *Cotinga cayana*
1 seen from the MWC canopy platform

**Screaming Piha** – *Lipaugus vociferans*
Seen twice at Manu Wildlife Center

**Purple-throated Cotinga** – *Porphyrolaema porphyrolaema*
1 seen from the hide at Blanquillo macaw clay lick

---

**MANAKINS**
**Dwarf-tyrant Manakin** – *Tyranneutes stolzmanni*

**Blue-backed Manakin** – *Chiroxipha pareola regina*
Seen briefly on collpa trail at Manu Wildlife Center
Yungas Manakin – Chiroxiphia boliviana*
At Cock of the Rock Lodge

Band-tailed Manakin – Ceratopipra fasciicauda
Two seen around the GRID at Manu Wildlife Center

Round-tailed Manakin – Pipra chloromeros
4 in total seen at Manu Wildlife Center

Blue-crowned Manakin – Pipra coronata exquisite
1 seen on the collpa trail at Manu Wildlife Center

E Cerulean-capped Manakin - Lepidothrix coeruleocapilla
Another important target – a female seen at Cock of the Rock Lodge

TITYRAS AND BECARDS
Black-tailed Tityra – Tityra cayana
1 seen at Manu Wildlife Center

Masked Tityra - Tityra semifasciata
Also seen at Manu Wildlife Center
**White-winged Becard – *Pachyrampus polychropterus***
1 seen at Amazonia lodge in the garden in two consecutive days

**Black-capped Becard - *Pachyrampus marginatus***
Very good views at Manu Wildlife Center

**Pink-throated Becard – *Pachyrampus minor***
Three in total seen in two consecutive days at Amazonia Lodge

**VIREOS & GREENLETS**

**Red-eyed Vireo – *Vireo olivaceus chivi***
Seen at Amazonia Lodge. Some classifications (e.g., Pinto 1944) have considered the South American *chivi* group as a separate species ("Chivi Vireo") from *V. olivaceus*, or as conspecific with *V. flavoviridis* (Hamilton 1962), but see Hellmayr (1935), Zimmer (1941d), Eisenmann 1962a, Johnson & Zink (1985), and Ridgely & Tudor (1989). Ridgely & Greenfield (2001) suggested, however, that more than one species may be involved within the South American *chivi* group.

**Dusky-capped Greenlet - *Pachysylvia hypoxanthus***
1 seen along the collpa trail at Manu Wildlife Center

**Tawny-crowned Greenlet – *Pachysylvia ochraceiceps***
At Amazonia Lodge

**JAYS**

**RR White-collared Jay - *Cyanolyca viridicyana***
6 in total seen in three consecutive days around Wayqecha – **NEAR THREATENED**

**RR Purplish Jay - *Cyanocorax cyanomelas***
Fairly common in the Manu Lowland rainforest – seen at Amazonia Lodge

**Violaceous Jay - *Cyanocorax violaceus***
Common in the Lowland rainforest

**SWALLOWS**

**Blue-and-white Swallow - *Notiochelidon cyanoleuca***
Common.

**Brown-bellied Swallow - *Notiochelidon murina***
Seen at Paucartambo town on our way to Wayqecha

**White-banded Swallow - *Atticora fasciata***
Common along the Rivers in the Lowland rainforest – seen at Amazonia Lodge and around Manu Wildlife Center
Southern Rough-winged Swallow - *Stelgidopteryx ruficollis*
Common

White-winged Swallow – *Tachycineta albiventer*
The most common Swallow of the lowland rainforest, along rivers and oxbow lakes

**WRENS**

Southern Nightingale-wren - *Microcerculus marginatus*

House Wren – *Troglodytes aedon*
Common. Many authors (e.g., Hellmayr 1934, Pinto 1944, Phelps & Phelps 1950a) formerly treated Neotropical mainland populations as a separate species *T. musculus*; see also Brumfield and Capparella (1996); this treatment was followed by Brewer (2001) and Kroodsma & Brewer (2005). The Falklands population, *T. a. cobbi*, is treated as a species (Wood 1993), as was done by Brewer (2001), Mazar Barnett & Pearman (2001), Jaramillo (2003), and Kroodsma & Brewer (2005);

Mountain Wren – *Troglodytes solstitialis*
Seen around Wayqecha

Puna (Sedge) Wren – *Cistothorus (minimus) platensis*
Great views along the Tres Crusés road in our detour to the Manu NP at Acjanaco - 4 in total. In the process of being elevated to species status

![Puna (Sedge) Wren – Silverio Duri](image)
Thrush-like Wren - *Campylorhynchus turdinus*
Seen just around the garden of Manu Wildlife Center Lodge

Moustached Wren – *Pheugopedius genibarbis*
2 seen around the garden of the Lodge at Manu Wildlife Center

**RR** Fulvous Wren - *Cinnycerthia fulva*
Very good views of another special target for CG bellow Wayqecha - in *chusquea* bamboo forest – great views!!

Gray-breasted Wood-Wren – *Henicorhina leucophrys*
Commonly heard in the cloud forest – seen around Cock of the Rock Lodge

Chestnut-breasted Wren – *Cyphorhinus thoracicus*
At Amazonia Lodge

**DONOCOBIUS**
Black-capped Donacobius – *Donacobius atricapillus*
Common on the ox-bow lakes and marshes of the lowlands – seen at Cocha Camungo and Cocha Blanco ox-bow Lake

**DIPPERS**
White Capped Dipper – *Cinclus leucocephalus.*
Seen in three different days around Cock of the Rock Lodge

**THRUSHES AND SOLITAIRES**
Andean Solitaire – *Myadestes ralloides*

Chiguanco Thrush – *Turdus chiguano chiguano*
The common Andean Thrush

Great Thrush – *Turdus fuscater ockenderi*
The common Thrush of the higher Cloud Forest

Glossy-black Thrush – *Turnus serranus*
Seen around Cock of the Rock Lodge

Black-billed Thrush - *Turdus ignobilis*
The common Amazonian Thrush

Hauxwell’s Thrush - *Turdus hauxwelli*
TANAGERS AND ALLIES

Red-capped Cardinal – *Paroaria gularis*
Common in the lowlands, especially around the ox-bow lakes – 4 seen at Cocha Blanco ox-bow Lake

Magpie Tanager – *Cissopis leveriana*
The biggest Tanager in Amazonian lowlands and fairly common – seen at Amazonia Lodge and at Manu Wildlife Center

**E White-browed (Black-capped) Hemispingus - *Hemispingus (aricuaris) atropileus***
4 in total seen below Wayqecha Biological Station in bamboo forest with mix-species flock. The subspecies *auricularis* is distinct genetically and morphologically, and should presumably given taxonomic rank (Garcia-Moreno et al. 2001, Garcia-Moreno & Fjeldsa 2003). Proposal needed

Superciliaried Hemispingus - *Hemispingus superciliaris*
Quiet common around Wayqecha

Black-eared Hemispingus - *Hemispingus melanotis berlepschi*
2 seen at Cock of the Rock Lodge

Black-goggled Tanager – *Trichothraupis melanops*
Also seen at Cock of the Rock Lodge

Yellow-crested Tanager - *Tachyphonus rufiventer*
1 seen along the collpa trail at Manu Wildlife Center

White-shouldered Tanager - *Tachyphonus luctuosus*
1 at Manu Wildlife Center

White-winged Shrike-Tanager – *Lanio versicolor*
1 at Amazonia Lodge and another one at Manu Wildlife Center

Masked Crimson Tanager – *Ramphocelus nigrogularis*
5 at Amazonia Lodge and 1 more at Manu Wildlife Center

Silver-beaked Tanager – *Ramphocelus carbo*
Common good-looking Tanager – common in the Lowland rainforest

Hooded Mountain-Tanager – *Buthraupis montana*
Common around Wayqecha Biological Station; the display is pretty acrobatic for such a large Tanager.

Grass-green Tanager - *Chlorornis riefferii*
5 in total seen around Wayqecha Biological Station
Scarlet-bellied Mountain-Tanager - *Anisognathus igniventris igniventris*
Fairly common around Wayqecha – common but spectacular

**RR Chestnut-bellied Mountain-Tanager – *Debusia castaneoventris***
2 in total seen above Wayqecha; amazing color contrast between the upper and underparts!

Yellow-throated Tanager - *Iridosornis analis*
4 seen below Cock of the Rock Lodge

Golden-collared Tanager – *Iridosornis jelskii*
6 in total above and below Wayqecha

Orange-eared Tanager – *Chlorochrysa calliparaea*
Very beautiful little Tanager; seen several times around Cock of the Rock Lodge.

Blue-gray Tanager – *Thraupis episcopus*
Common.

Palm Tanager – *Thripis cyanocephala.*
2 seen at Manu Wildlife Center
Blue-capped Tanager – *Thraupis cyanocephala*
Fairly common in the cloud forest of the Manu road – seen around Wayqecha

Blue-necked Tanager – *Tangara cyanicollis*
Another Christmas-tree bird! Common, seen around Cock of the Rock Lodge

Spotted Tanager – *Tangara punctata*
Replaces the former in the higher foothills, not uncommon around 1000 meters; Seen around Cock of the Rock Lodge

Blue-and-black Tanager – *Tangara vassorii atrocaerulea*
2 seen below Wayqecha

Beryl-spangled Tanager – *Tangara nigroviridis*
Quiet common around Cock of the Rock Lodge

Turquoise Tanager – *Tangara mexicana*
1 seen from the Camungo canopy platform at Manu Wildlife Center - not found in Mexico!

Paradise Tanager – *Tangara chilensis*
What can you say! A pleasure to have such a pretty species so common in Cloud forest but not found in Chile! – seen at Cock of the Rock, Amazonia and Manu Wildlife Center

Opal-rumped Tanager – *Tangara velia*
2 seen from the Camungo canopy platform at Manu Wildlife Center

Opal-crowned Tanager – *Tangara callophrys*
3 also from the Camungo canopy platform

Bay-headed Tanager – *Tangara gyrola*
3 seen in two different days at Cock of the Rock Lodge

Golden-eared Tanager – *Tangara chrysotis*
4 in total in two different days at Cock of the Rock Lodge

Green-and-gold Tanager – *Tangara schrankii*
Seen at Amazonia Lodge and Manu Wildlife Center

Golden Tanager – *Tangara arthus*
Great views around Cock of the Rock Lodge

Black-faced Dacnis – *Dacnis lineata*
2 females seen at Manu Wildlife Center

Yellow-bellied Dacnis – *Dacnis flaviventer*
Very good views at Amazonia Lodge
Blue Dacnis – *Dacnis cayana*
Seen at Cock of the Rock Lodge and at Manu Wildlife Center. Fairly common

Purple Honeycreeper – *Cyanerpes caeruleus*
Seen in two consecutive days around Cock of the Rock Lodge

Green Honeycreeper – *Chloropanes spiza*
1 seen at Amazonia Lodge

Yellow-backed Tanager - *Hemithraupis flavicollis*
1 seen along the collpa trail at Manu Wildlife Center

Blue-backed Conebill – *Conirostrum sitticollor*
Seen twice around Wayqecha

Tit-like Dacnis – *Xenodacnis parina*
1 seen at Acjanaco (guards station)

Rusty Flowerpiercer – *Diglossa sittoides.*
2 seen in our way to Wayqecha

RR Moustached Flowerpiercer - *Diglossa mystacalis*
Seen above Wayqecha Biological Station.

Black-throated Flowerpiercer - *Diglossa brunneiventris*
Common in the upper cloud forest on the Manu road

Deep-blue (Golden-eyed) Flowerpiercer – *Diglossopis glauca*
10+ seen around Cock of the Rock Lodge

Masked Flowerpiercer - *Diglossa cyanea*
Fairly common in the Manu cloud forest – seen around Wayqecha

Plushcap - *Catamblyrhynchus diadema*
2 seen below Wayqecha in our way down to Cock of the Rock Lodge

RR Peruvian Sierra-Finch – *Phrygilus punensis*
Seen in the higher mountains on the Manu road in our way to Wayqecha. Named for the Southern Peruvian Department of Puno.

Ash-breasted Sierra-Finch – *Phrygilus plebejus*
Seen on the higher mountains of the Manu road in our way to Wayqecha

Band-tailed Sierra-Finch – *Phrygilus alaudinus*
2 individuals seen near the Pampayacta pass – via Pissac to the Manu road in our way to Wayqecha
Band-tailed Seedeater – *Catamenia analis analis*
Common in the Andes where there is some vegetation, in our way to Wayqecha

Plain-colored Seedeater – *Catamenia inornata.*
Seen in the higher mountains of the Manu road in our way to Wayqecha

**INCERTAE SEDIS-2**

Buff-throated Saltator – *Saltator maximus*
2 seen at Manu Wildlife Center

Grayish Saltator – *Saltator coerulescens*
1 seen at Amazonia Lodge

**NEW WORLD SPARROWS AND ALLIES**

Rufous-collared Sparrow - *Zonatrichia capensis*
Only in the Andes. A pretty Sparrow but common

Yellow-browed Sparrow – *Ammodramus aurifrons*
Seen on the roadside in our way to Puerto Maldonado

Pectoral Sparrow – *Arremon taciturnus*
1 at Amazonia Lodge

Gray-browed Brushfinch - *Arremon assimilis*
Two seen very well below Wayqecha

**RR Black-faced Brushfinch – Atlapetes melanolaemus**
Common in the Manu road in the cloud forest – seen around Wayqecha. The Atlapetes genus has been completely revamped based on bio-chemical data and work done at Copenhagen Field Museum. Formerly considered part of Rufous-napped Brush-Finch complex *A. rufinucha*. *Atlapetes melanolaemus* was formerly (Hellmayr 1938, Paynter 1970a, Meyer de Schauensee 1970, Ridgely & Tudor 1989, Sibley & Monroe 1990) considered a subspecies of *A. rufinucha*, but see García-Moreno & Fjeldså (1999).

Common Chlorospingus - *Chlorospingus flavopectus*
Seen around Rocotal in our way to Cock of the Rock Lodge. Genetic data (REFS, Burns et al. 2002, 2003) indicate the genus *Chlorospingus* is not a member of the Thraupidae, but (Klicka et al. 2007) a member of the Emberizidae. SACC proposal passed to transfer to Emberizidae. Barker et al. (2013) further confirmed the placement of the genus with the New World sparrows. Frank Pitelka (in Tordoff 1954a) long ago noted the emberizine-like behavior of *Chlorospingus*. SACC proposal passed to change English names of the species in the genus from “Bush-Tanager” to “Chlorospingus”.

Short-billed Chlorospingus – *Chlorospingus parvirostris*
1 seen at Rocotal area above Cock of the Rock Lodge
Yellow-throated Chlorospingus – *Chlorospingus flavigularis.*
Seen in several days around Cock of the Rock Lodge

**CARDINAL GROSBEAKS**

Red-crowned Ant-Tagner – *Habia rubica*
Male and female seen along the collpa trail at Manu Wildlife Center

Carmiol’s Tanager – *Chlorothraupis carmioli*
1 seen well at Amazonia Lodge

Blue-black Grosbeak - *Cyanocompsa cyanoides* *

**NEW WORLD WARBLERS**

Blackburnian Warbler – *Setophaga fusca*
Seen around Cock of the Rock Lodge

Tropical Parula – *Setophaga pitiayumi*
Also seen around Cock of the Rock Lodge

Citrine Warbler – *Myiothlypis luteoviridis striaticeps*
Common in the cloud forest – seen around Wayqecha Biological Station and Rocotal

**RR Pale-legged Warbler - Myiothlypis signatus**
2 below Wayqecha

**Two-banded Warbler – Myiothlypis bivittatus**
Seen below Cock of the Rock Lodge

**E Golden-bellied (Cuzco) Warbler – Myiothlypis chrysogaster**
Seen below Cock of the Rock Lodge in our way to Amazonia Lodge. Ridgely & Greenfield (2001) treated the northern subspecies *chlorophrys* as a separate species – Choco Warbler - from *Myiothlypis chrysogaster* based on differences in descriptions of songs; see Zimmer (1949) for rationale for considering them sister taxa. This Golden–bellied warbler becomes a Peruvian endemic

**Russet-crowned Warbler - Myiothlypis coronatus**
Seen around Cock of the Rock Lodge

**RR Three-striped (Yungas) Warbler – Basileuterus (punctipectus) tristriatus**
Quiet common around Cock of the Rock Lodge. Donegan (2014) provided evidence that the SE Peru & Bolivian punctipectus group (including canens) should be treated as a separate species. SACC proposal needed.

**Slate-throated Redstart (Whitestart) – Myioborus miniatus**
Common around Cock of the Rock Lodge
Spectacled Whitestart (Whitestart) – *Myioborus melanocephalus*
Fairly common in Manu Claud forest generally higher than the former – seen around Wayqecha and Rocotal area

**OROPENDOLAS, ORIOLES AND BLACKBIRDS**

Crested Oropendola – *Psarocolius decumanus maculosus*.
Common in the Amazon lowlands – seen at Amazonia Lodge

**RR** Dusky-green Oropendola – *Psarocolius atrovirens*.
Seen at Cock of the Rock Lodge - fairly common

Russet-backed Oropendola – *Psarocolius angustifrons alfredi*
Common

Olive Oropendola – *Psarocolius bifasciatus*
A flock of 20+ seen at Amazonia Lodge

Casqued Cacique – *Cacicus oseryi*
Seen at Amazonia Lodge and at Manu Wildlife Center. Formerly called “Oropendola”

Yellow-rumped Cacique – *Cacicus cela*
Common.

Red-rumped Cacique – *Cacicus haemorrhous*
1 at Manu Wildlife Center

Southern Mountain Cacique – *Cacicus chrysonotus*
Seen in two consecutive days around Wayqecha Biological Station

Solitary Cacique – *Cacicus solitarius* *

Orange-backed Troupial – *Icterus croconotus*
Seen in two different days at Amazonia Lodge

**RR** Pale-eyed Blackbird – *Agelaius xanthophthalmus*
1 seen at Cocha Camungo and 1 more in the swamp after Santa Rosa on the highway in our way to Puerto Maldonado

Giant Cowbird – *Molothrus oryzivorus*
Common in the lowlands – seen along the Madre de Dios River

Red-breasted Meadowlark – *Sturnella militaris*
10+ seen on the roadside in our way to Puerto Maldonado
FINCHES

Hooded Siskin – *Spinus magellanica urubambensis*
Seen on the Manu road in our way to Wayqecha

White-lored (golden-bellied) Euphonia – *Euphonia chrysopasta*
2 seen at Amazonia Lodge

Bronze-green Euphonia – *Euphonia mesochrysa*
2 seen below Cock of the Rock Lodge

Orange-bellied Euphonia – *Euphonia xanthogaster brunneifrons*
Common Euphonia around Cock of the Rock Lodge

Rufous-bellied Euphonia – *Euphonia rufiventris*
1 seen in our way to Amazonia Lodge

MAMMALS

MARMOSETS

Weddell’s Saddle-back Tamarin – *Saguinus weddelli*
Seen in several days at Manu Wildlife Center

Weddell’s Saddle-back Tamarin – Alex Durand
MONKEYS

Urubamba Titi Monkey – *Callicebus urubambensis*
Seen at Amazonia Lodge and Manu Wildlife Center

Black-capped Squirrel Monkey – *Saimiri boliviensis*
Seen at Amazonia Lodge and Manu Wildlife Center

Large-headed Capuchin – *Sapajus macrocephalus*.
Seen at Cock of the Rock Lodge and Manu Wildlife Center

Shock-headed Capuchin – *Cebus cuscinus*
4 seen at Manu Wildlife Center

Gray’s Bald-faced Saki – *Pitrhecia irrorata*
Very good views of two individuals at Manu Wildlife Center

Colombian Red Howler Monkey – *Alouatta semiculus*
Seen around Manu Wildlife Center

Gray Wooly Monkey – *Lagothrix cana*
Seen in two different occasions around Cock of the Rock Lodge

Gray Wooly Monkey
Black Spider Monkey – *Ateles chamek* **ENDANGERED**  
Common at Manu Wildlife Center

**RACCOON FAMILY**  
*Tayra – Eira Barbera*  
1 seen at Amazonia Lodge

**Giant Otter**  
*Pteronura brasilensis*  
Wonderful encounter with 4 fishing at Cocha Blanco ox-bow Lake

**DEERS**  
*Common Red Brocket Deer – Mazama americana*  
One seen at Amazonia Lodge

**SQUIRRELS**  
*Sanborn’s Squirrel – Sciurus sanborni*  
Seen at Cock of the Rock Lodge every day
LARGE RODENTS
Mountane Guinea Pig – *Cavia tschudi*
2 seen along the little road at Acjanaco after lunch in our way to Wayqecha

Capybara – *Hydrochaeris hydrochaeris*
2 seen on the Madre de Dios River bank around Manu Wildlife Center

Brown Agouti – *Dasyprocta variegata*
Common in the Lowland rainforest – seen at Cock of the Rock Lodge, Amazonia Lodge and also at Manu Wildlife Center

Amazon Bamboo Rat – *Dactylomys dactylinus*
2 seen at Antthrush trail – bellow Manu Wildlife Center

BATS
Long nosed bat – *Rhynchonycteris naso*
Seen at Cocha Blanco ox-bow Lake

REPTILES & AMPHIBIANS
White Caiman – *Caiman crocodilus*
Seen along the Madre de Dios River bank around Manu Wildlife Center

Side -necked Turtle – *Podocnemis unifilis*
Seen sunning on the logs around MWC along the Madre de Dios River.

Amazon Racerunner – *Ameiva ameiva*
Common around the clearing in the Manu lowland

Tegu Lizard – *Tupinambis teguixin*
Seen at Amazonia Lodge and at Manu Wildlife Center
